FRIENDLY PEOPLE.  
GOOD IDEAS.

dotSource®

## JavaScript Developer (f/m/x)

dotSource, that's over 300 digital natives with one mission: designing digital customer relations. We've been supporting businesses in their digital transformations since 2006. Whether e-commerce and content platforms, customer relationship and product data management, or digital marketing and artificial intelligence: in line with our claim »Digital Success right from the Start«, we develop and implement scalable digital products. Companies like Esprit, EMP, BayWa, Axel Springer, hagebau, C.H. Beck, Würth and Stabilo trust in our competence. Learn more at [www.dotSource.com](http://www.dotSource.com).

### 6 REASONS, WHY YOU SHOULD JOIN DOTSOURCE:

From the first moment:  
Exciting projects with well-known clients, provocative tasks, and responsibilities.

Drinks, fresh fruit, table soccer, team events, and office parties. A fun, familiar feeling.

Steady chances to learn more through further development and actively shape dotSource's growth.

dotSource Bootcamp gets you ready for your role quickly.

We take your work-life balance to heart. Expect flexible working times, time accounts, fitness subsidies, and much more.

And the most important thing:  
**WE'RE LOOKING FORWARD TO YOU!**

#### WHAT YOU CAN EXPECT:

- Support and development of e-commerce projects in an interdisciplinary team
- Analysis of requirements, specification, and conception of user interfaces, especially of software design and usability
- Frontend development based on JavaScript and common frameworks such as Angular, React, Node.JS and many more
- Designing architectures, introducing new concepts and technologies
- Optimisation and testing of the developed frontends on all relevant platforms and devices

#### WHAT WE EXPECT:

- Successfully completed studies in computer science or economics or a comparable qualification
- Professional handling of JavaScript and common frameworks (jQuery, Angular, React) in front-end development
- Knowledge in handling databases (e.g. MySQL) and frontend technologies (HTML5, CSS)
- Development with agile methods such as Scrum
- Knowledge of business processes in e-commerce, interest in innovative trends and new technologies
- Strong team and communication skills, good German language skills
